

Shreepaada M C

Entry-level UX Designer with hands-on experience designing mobile and web applications through the complete design process, from user research to high-fidelity prototypes. Completed the Google UX Design Certificate and worked on real-world projects focused on solving user problems through simple and easy-to-use designs.

EXPERIENCE

Klart'Digi (Klartopedia ERP), UX Designer Intern

Jan 2025 – Jul 2025

Worked on improving the user experience of an ERP platform used by schools. Designed reusable UI components and worked closely with developers during implementation. Helped create certificate and report generation features to make administrative tasks easier. Identified usability issues and suggested improvements to create a smoother user experience.

CASE STUDY

LifeLink – Blood Donation Mobile App

//

Started the project after learning about the difficulties a friend faced while trying to arrange blood during an emergency. Created paper wireframes, low-fidelity wireframes, user flows, and interactive prototypes. Designed a mobile app that helps users find blood donors, locate blood banks, and respond to urgent blood requests. Refined the design through feedback and multiple design iterations.

Fam Manager – Family Management Mobile/Web App

//

Designed a solution based on personal challenges with managing family documents and schedules. Created paper wireframes, low-fidelity wireframes, user flows, and high-fidelity prototypes. Built a mobile/ Web app concept that helps families securely store documents and Schedules. Refined the design through usability testing and design iterations.

PROJECTS

AgroVision – Precision Farming Platform

//

Worked on a platform that helps farmers make better decisions using soil, weather, and crop data. Helped simplify complex information into an easy-to-understand user experience. Collaborated on a project that was later published at IEEE ICCAMS 2025.

EDUCATION

B.Tech in Computer Science
Engineering

Dayananda Sagar University
// CGPA: 8.12

SKILLS

UX Design

user Research, User Interviews,
Personas, User Flows,
Wireframing, Prototyping,
Usability Testing, Accessibility,
Interaction Design

Tools

Figma, Adobe XD, CSS, HTML,
React, Next js

ACHIEVEMENTS

Published Research Paper –
IEEE ICCAMS 2025

3rd Place – Inter-College
Hackathon
