A recent Computer Science (Bachelor of Technology) graduate seeking a role in UX Design to apply my skills in user research, wireframing, prototyping, and usability testing to create intuitive digital experiences. Leveraging hands-on experience in designing user-centered solutions and conducting UX case studies to solve real-world user problems.

EDUCATION

Dayanand Sagar University, Bangalore

2021 - 2025

Bachelor of Technology (Computer Science and Engineering) | CGPA - 8.12 / 10

WORK EXPERIENCE

UX Designer Intern – Klart'Digi (Klartopedia ERP)

January 2025 – July 2025

- Increased task efficiency for ERP users by creating wireframes, user flows, and interactive prototypes for key platform features.
- Improved design consistency and scalability by developing reusable Angular and Syncfusion components for multiple ERP modules.
- Streamlined document generation workflows by creating reusable HTML/CSS templates that automated report cards, certificates, rank cards, and fee receipts.
- Improved reliability of PDF exports by migrating document generation to a Node.js + Puppeteer backend.

Web Development Intern – Vertotech Aerospace

July 2023 – September 2023

- Improved product discoverability by designing and developing the company's drone showcase website using Next.js and TypeScript.
- Increased user engagement by implementing interactive animations and micro-interactions using Framer Motion.

ACADEMIC PROJECTS

Life Link

June 2026

- The project focuses on improving access to blood donors, blood banks, and emergency blood requests by leveraging user research, journey mapping, wireframing, and prototyping to create a streamlined donor discovery and request management experience.

Fam Manager

May 2026

- The project addresses challenges in organizing family documents and schedules by leveraging user research, user flows, wireframing, and high-fidelity prototyping to create a secure and intuitive information management experience across mobile and web platforms.

SKILLS & ACHIEVEMENTS

UX Design : User Research, Personas, User Flows, Journey Mapping, Information Architecture, Wireframing, Prototyping, Usability Testing, Design Systems

Tools & Platforms : Figma, FigJam, Git, GitHub, Postman, Vercel

Programming Languages: HTML, CSS, JavaScript, TypeScript, React, Next.js, Angular

Achievements & Certifications : Published a research paper at IEEE ICCAMS 2025, secured 3rd place in an Inter-College Hackathon, earned the Google UX Design Professional Certificate.
